June 2021 - April 24

PROFILE SUMMARY

I am a dedicated Full-Stack Developer with a strong foundation in **MERN stack technologies** (MongoDB, Express.js, React, and Node.js). I have a passion for crafting innovative web applications that deliver exceptional user experiences. With a focus on building **scalable** and **efficient** solutions, I am skilled at managing projects from inception to deployment. My expertise in front-end development, back-end architecture, and database management enables me to deliver high-quality, robust, and reliable web applications. I am eager to contribute my skills to a dynamic team and play a key role in developing cutting-edge software solutions.

PROJECTS

Social Media Website | Feb - May 2023

Tools: HTML, express.js, mongodb

This was my first college project, an advanced social media platform for sharing text, images, videos, and files.

- Created a responsive and intuitive user interface using HBS (Handlebars) for a seamless front-end experience.
- Integrated a robust back-end with Express.js for efficient data management and dynamic functionality.
- Implemented **MongoDB** for secure data storage, ensuring reliability and 100% data protection.

Southern Tourism | Sep - Oct 2023

Tools: HTML, express.js, mongodb

The Southern Tourism **Web-Based Project** is a comprehensive online platform designed to promote tourism in the Southern region.

- Built the front-end using HBS with an intuitive user interface, ensuring smooth navigation.
- Connected the HBS-based front-end to an Express.js-powered back-end to enable **dynamic user interactions**.
- Implemented API integrations that allow users to share their experiences through **reviews, ratings, and feedback**.

My Portfolio Application | July - Oct 2024

Tools: React.js, express.js

Designed and developed a **responsive personal portfolio** showcasing projects, skills, and expertise using modern web technologies.

- Crafted a dynamic and responsive front-end with **React.js**, delivering an intuitive and engaging user interface tailored for seamless user experiences.
- Integrated dynamic features, including a contact form and links to GitHub and other professional platforms.
- Focused on **user-friendly navigation** and aesthetic design to enhance the user experience.

CERTIFICATIONS & TRAINING

- Currently Advancing:** *Java Full Stack Development* — focusing on building robust back-end systems, efficient APIs, and user-friendly front-end interfaces to deliver comprehensive, end-to-end web solutions.
- Certified Industrial Visit:** *Srishti Innovative Computer System, Technopark, Trivandrum* — Awarded for attending a one-day visit to gain practical insights into IT industry practices and operations.

ADDITIONAL INFORMATION

Programming: React.js, JavaScript, Node.js, MongoDB.

Tools: Visual Studio code, Eclipse IDE, Figma.

Soft Skills: Problem-solving, Teamwork, Experience in teaching
