## Profile Summary

Full-Stack Developer with expertise in React.js, Node.js, and MongoDB. Experienced in building user interfaces, real-time features, and backend REST APIs with a focus on performance and usability. Skilled in quickly adopting new tools such as Three.js and GSAP to create dynamic, visually engaging frontend experiences.

## Project Highlights

**Coding Platform (React.js, Flask, MySQL) | Jan – Apr 2025**  
Engineered a virtual coding platform in Python, React, and SQL Server for software engineers.

- Crafted a modern React UI with Three.js & GSAP and reduced load latency by 70%.
- Built a strong user authentication system and collected the previous 5+ user activities using Redux.
- Solved server crashes by implementing the Python error handling methods when a user creates a new file.

**Southern Tourism (Node.js, MongoDB, HBS) | Dec 2023 – Mar 2024**  
Led a team project to build a tourist platform with Express.js and MongoDB, improving collaboration.

- Developed Handlebars-based responsive UI with improved UX by 30%
- Built premium user verification with NodeMailer and optimized 50+ queries, cutting API load time by 35%.
- Collaborated on detailed project documentation and reporting by applying SDLC principles.

**Social Media Platform (Node.js, MongoDB, Socket.io) | Feb – May 2023**  
Real-time platform for messaging, media sharing, and chat.

- Implemented a WebSocket in the chat section where 50+ users can communicate with 90% crash-free.
- Secured user credentials by implementing bcrypt password hashing (99% protection).
- Achieved 98% UTC accuracy by storing message timestamps in milliseconds with JavaScript Date().

## Skills

|                                                                      |                                                       |                                                           |
|----------------------------------------------------------------------|-------------------------------------------------------|-----------------------------------------------------------|
| <b>Frontend</b><br>React.js, HTML5, CSS3, JavaScript, Three.js, GSAP | <b>Backend</b><br>Node.js ,Python, Java               | <b>Database Management</b><br>MongoDB, MySQL              |
| <b>Version Control</b><br>Git, GitHub, Vercel                        | <b>Debugging &amp; Testing</b><br>Unit Testing, CI/CD | <b>Soft Skills</b><br>Problem Solving, Team Collaboration |

## Education

BSc Computer Science – UIT Pirappancode, Kerala (2021 – 2024)  
HSS, Computer Science – S.N.G.H.S.S Chempazhanthy, Kerala (2019 – 2021)

## Certifications

- Java Full Stack Development (In Progress): React, Bootstrap, Spring Boot, and SQL-based full-stack web application training.
- Industrial Visit (Srishti Innovative, Techno Park): Insight into real-world software workflows.
